CAREER SUMMARY

Results-driven IT Consultant with a proven track record of delivering exceptional outcomes for diverse clients. Offering expertise in IT strategy, project management, and technology implementation. Committed to providing innovative solutions that optimize operations and drive business growth.

- **As Project Manager:** A trusted authority for project organization and timeline management. Proficient in defining and communicating project objectives, procuring necessary resources, and developing comprehensive timelines and schedules. Adept at managing project quality, time, and cost while ensuring successful project completion. A collaborative team player with a strong problem-solving aptitude.
- **As Team Leader:** Led and motivated diverse, multidisciplinary teams to achieve their goals and deliver high-quality results. Proficient in essential Agile methodologies, including Sprint Planning, Daily Scrum, Sprint Review, Sprint Retrospective, and Sprint Grooming (Refinement). Exceptional capacity and time management skills to drive team productivity.
- **As Full Stack Developer:** 19+ years of hands-on experience in designing, developing, and implementing web applications and solutions. Expertise spans multiple technologies and programming languages, including PHP, Javascript, C#, Python, Java, Actionscript, and more. Adept at leveraging a wide range of tools and frameworks to create robust and efficient solutions.

WORK EXPERIENCE (19+ YEARS)

Project Manager at FormedAI-Optimous. 2017 – 2022

Led successful implementation of multiple solutions, ensuring client satisfaction. Proactively communicated project status and objectives to clients, while managing budgets, recruitment, and long-term business success. Skilled in sprint planning, coordination, and serving as a Scrum Master.

Project Manager at Optimous. 2011 - 2022

Ensured on-time and budget-compliant project execution while resolving issues promptly. Maintained regular client contact for satisfaction. Prepared project status reports and kept clients informed. Led sprint planning, coordinated developer tasks, and oversaw code reviews, testing, implementations, and QA testing.
